SCHOOL ENVIRONMENTS

Sensory Space

Our children are currently sharing their ideas and views on how to make our sensory space more inviting and relaxing.

Once agreed, we want to develop this space to be used in a more flexible way.

Library

Our library has moved to another room and so we need help to set it back up again. We want to make it a place where you can get lost in a book by creating different spaces to read and have author/book displays.

How can you help?

Some time across the school year to help us set up/maintain our spaces. 2 hours or 30 minutes - whatever you can spare across the year.
