OUTDOOR LEARNING

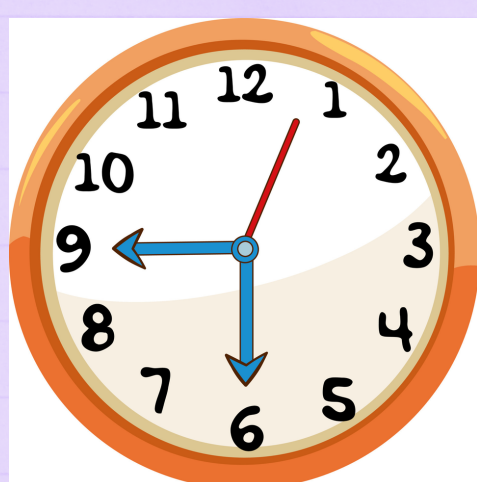

What is it?

Outdoor learning gives our children the chance to explore, be active and discover the world around them in a hands-on way. It boosts confidence, supports wellbeing and makes learning fun and memorable. We want to continue to develop our approach to outdoor learning through the use of our spaces, resources and input from others.

How can you help?

- Help to develop spaces for us to use for different types of outdoor learning
- Help us to source items to make outdoor learning more meaningful eg. bulbs
- Volunteer to help on trips and experiences

How much time?

- Any time you can spare! Whether it is 30 minutes to help with a garden tidy, or 2 hours to help on a woodland walk.
